Discovery Day Schedule

We're so glad you're considering us as one of your university choices. Come along to a tailor made Discovery Day and delve deeper into your chosen subject(s), to experience what it's really like to be a student here at the University of Northampton. Here's what we've got planned for your day:

HND Computing (Mobile Computing)

The hands-on session gives you the exciting experience of life as a computing student. We start with a brief introductory talk during which you will find out about our courses and our industry links.

This will be followed by an interactive session where you will experience a practical example of how first year Computing students tackle the problem solving topics within the course.

You will also be introduced to the Virtual Learning Environment and the way the modules are delivered and assessed.
