The University of Northampton is working with student pad to provide the most helpful housing list we can. You can log onto student pad by visiting www.northamptonstudentpad.co.uk/Accommodation and following the instructions below.

1. Enter the criteria for search (area, number of bedrooms, price etc) then press the ‘search accommodation’ button.
2. You will then be prompted for the password which is **studenthouse** and you can then press the submit button. A list of matching properties will then display.

3. You will also be able to create an account which will alert you to any new properties as they are added.
