

Study a degree off campus

Distance Learning courses 2020-21.

University of Northampton

Our distance learning programmes work flexibly around your work and life commitments, so you can study at your own convenience and develop your own study schedule. We use a wide range of methods of learning, teaching and assessment to help you gain the skills and knowledge you will need for your working life.

You will receive excellent support from our staff and the ability to engage with your peers to deepen your learning experience. Many of our online programmes are recognised by professional bodies, to help you progress in your chosen career.

How distance learning works.

We support our students wherever they are based in the world. You will have access to a wide range of electronic learning resources, from lectures to e-Books, through the library and NILE - Virtual Learning Environment. You will also have access to a personal tutor, the Learning Development team and membership to our Student Union.

Your assessed work will be submitted and graded online, so you will be able to see your grades and feedback immediately.*

'Distance Learning' will not appear on your qualification certificate and you can attend the University's graduation ceremony in the UK. Graduates are granted automatic membership to UON's Alumni Association.
