

Renewable

Our business is backed by electricity generated from renewable sources.

We certify that The University of Northampton has 100% of its electricity supply from EDF Energy backed by **Renewable Energy**.

1st April 2019 to 31st March 2020

A handwritten signature in black ink, appearing to read 'R. Hughes'.

Rich Hughes
Director of Sales and Marketing

All source certification meets GHG Protocol Scope 2 Guidance Quality Criteria. This is not a REGO certificate. REGO certificates are held by energy suppliers for Fuel Mix Disclosure. The low carbon electricity that we buy for Blue or Renewable tariffs and products is supplied into the National Grid. Customers receive that electricity through the National Grid, not directly from low-carbon generators.
