

Placements Organisations that the University shares student personal data with.

In accordance with the General Data Protection Regulation (GDPR) (EU) 2016/679, (as amended by the UK GDPR and in conjunction with the UK Data Protection Act 2018), The University of Northampton needs to explain which Article 6 condition it is relying on for holding and processing personal data. The University will process personal data in accordance with the performance of contractual arrangements you as a student have with us (including your obligations to the professional body). (Art 6 1(b)).

The University of Northampton also has a legitimate interest (as defined by Art 6 1(f)) to share your personal details before and during your programme with the organisations that provide you a placement and work based learning opportunity. A list of placement organisations used by the University of Northampton is below.

The list is alphabetical by organisation name and is accurate as of 1st August 2022. For some courses, and due to professional body regulations, the University determines the placement organisation you will be visiting and gaining the knowledge and understanding to meet your course requirements. Not all courses use all of these organisations listed. It is also worth noting that relationships with placement organisations are developed all the time, and so this list will be updated every year to reflect any changes.

You have the right to make representation to the University and at any time during your enrolment on your programme. Should you have any concerns in relation to sharing your personal data for placement, please contact placements@northampton.ac.uk

Julie Martin
